Cielo

In each auditorium, conference center, high school, hotel and university one uses a lectern. Bravour® has the largest range of lecterns of Europe, in all thinkable designs. From classic to ultra modern. Let us pay special attention to an lift powered lectern design "Cielo", where Classic meets Trendy.

Usable for everybody

Because the integrated electronic lift system, all people can use the lectern during their presentation. Tall people, children and also disabled people. The height can be adjusted from 600 mm till 1200 mm. Beauty at its best.

Maximum expansion options

Do not hesitate to ask us for more accessories or options such as audio connectivity, VGA/HDMI decoupling, Flight cases. We will produce the product you desire.
